### Media partner

**Transnational Dispute Management** (TDM, ISSN 1875-4120) is a comprehensive and innovative information service on the management of international disputes, with a focus on the rapidly evolving area of investment arbitration, but also in other significant areas of international investment (such as oil, gas, energy, infrastructure, mining, utilities etc).

It deals both with formal adjudicatory procedures (mainly investment and commercial arbitration), but also mediation/ADR methods, negotiation and managerial ways to manage transnational disputes efficiently. See [www.transnational-dispute-management.com](http://www.transnational-dispute-management.com) for more information. You can apply for a free OGEMID trial membership and students can sign up for Young-OGEMID (which is free)
