A Conversation with Carolyn Lamm

White & Case

interviewed by

Professor Michael Waibel
Harvard Law School

Please join the International Law Association and HIALSA for a discussion with Carolyn Lamm who *Chambers Global* refers to as “**one of the best arbitration lawyers.**”

Carolyn will discuss her experiences in the field of investment arbitration in light of her lengthy and distinguished career as one of the **pioneers** in the field. The audience will get a better sense of the history, direction, and importance of the field, taking into account both its origins and future direction.

Carolyn's exceptional record in international dispute resolution and her leadership in the profession includes serving as lead counsel in high-stakes, cutting-edge cases such as:

- Acting for the Russian Federation, resisting the enforcement of the US\$50 billion Yukos arbitration awards, the largest awards in the history of arbitration.
- Representing Uzbekistan in several investment arbitration proceedings, including successfully defeating more than 99% of the claimant's US\$1.3 billion claim and the first-ever investment treaty claim before ICSID to be dismissed on corruption grounds.
- Representing, among other appointments, tens of thousands of Italian holders of Argentine bonds in a US\$2.5 billion ICSID arbitration under the Argentina-Italy bilateral investment treaty.
