

BERKELEY RESEARCH GROUP WORKSHOP

Calculation of Compensation in International Arbitration: Interactive Primer on Discounted Cash Flow Methodology

International Arbitration Juniors

In collaboration with International Arbitration Juniors, BRG's experts will provide an interactive mock case that serves as a tutorial to understand key concepts of the DCF methodology. Participants will be invited to ask questions as well as test their hand at cross-examining the experts. The speakers will focus on how to identify quantum items that make an impact on damages, credibility, or otherwise, instead of focusing on technical discussions. There will be time at the end for a brief panel discussion with audience questions over lunch.

29 November 2022 (Tuesday)

12:00 pm – 1:30 pm ET

BRG Office, 1800 M Street NW, Second floor,
Washington, DC 20036, USA
