

REVISITING LEGAL AID IN INTERNATIONAL ARBITRATION AND CROSS-BORDER DISPUTE RESOLUTION

Join us at the Second Asian Young Arbitration Practitioners' (AYAP) Summit, during the International Conference on Legal Aid, organized by the Bar Association of the Kingdom of Cambodia. Panelists will explore critical issues related to the accessibility of legal aid in arbitration proceedings, how escalating costs impact access to justice, challenges facing startups in arbitration, the effects of third-party funding, and how technological advancements are reshaping access to legal remedies. Engage with panelists on the discussion of various ways to foster a more equitable arbitration environment.
